Southeastern

In advancing its mission, Southeastern is building on a foundation of partnerships with the community. Partnerships with area businesses provide scholarships, internships and new programs to build a better workforce. A global-view of community, as well as a focus on diversity, is promoted through partnerships with the University of Reutlingen in Germany, the nations of Haiti, Costa Rica, and Spain, and organizations such as the Inter-American Development Bank and the Organization of American States.

Southeastern

One especially important partnership to Southeastern and the surrounding community involves the Columbia Theatre for the Performing Arts in downtown Hammond. The cooperative agreement between Southeastern, the Hammond Downtown Development District, and elected officials is bringing about the renovation of this historic landmark. Completion of the project is expected in early 2002, and the 900-seat theatre, which will be managed by Southeastern, will serve as the premier performing arts facility on the north shore.

Southeastern Louisiana University

Strategic Priorities of the University

- To recruit, advance, and graduate qualified students
- To address change in a new community of learners through effective instruction and relevant curricula
- To foster the development and effective utilization of faculty and staff
- To strengthen collaboration and partnerships in internal and external communities
- To enhance and utilize the physical and technological infrastructure
- To increase, diversify and effectively manage funding

Points of Excellence 2000 - 2001

Southeastern and the St. Tammany Parish government form a partnership to offer college-credit telecourses through St. Tammany Parish government access channels.

The university's new quality admissions standards were implemented in Fall 2000, and the average ACT score for beginning freshmen increases significantly.

On September 14, 2000, Southeastern marked the day the University first opened its doors seventy-five years previously. To celebrate, Southeastern hosted a campus and community-wide party.

U.S. Representative David Vitter announces that the Manchac Project at Turtle Cove is awarded nearly \$1 million in federal funds to continue and expand research and educational activities.

The 15th season of Fanfare features Frank McCourt, the best-selling author of *Angela's Ashes*.

An accountability report on alcohol at Southeastern shows that the university is ahead of many of its sister institutions in preventing student alcohol abuse.

Pulitzer Prize winning journalist Russell Carollo ('80) is honored as Alumnus of the Year.

History professor and author Samuel C. Hyde Jr., Director of the Center for Southeast Louisiana Studies, is named to the Ford Endowed Chair in Regional Studies, the university's second \$1 million endowed chair.

Approximately 80 area high school students come to campus to participate in "National Groundhog Job Shadowing Day."

Points of Excellence 2000 - 2001 (continued)

Seeking a way to alleviate an impending shortage of certified teachers in the nation's classrooms, U.S. Representative David Vitter announces a \$1.8 million federal allocation to Southeastern to help expand the Alternate Teacher Certification Program.

Southeastern's teacher preparation program scores higher than the state average in every category of assessment, according to institutional report cards released by the Louisiana State Board of Regents.

Yu Hsing, head of the General Business Department is ranked as the 13th most published economist in the world based on the number of his publications listed in EconLit, a database of article abstracts published in economics journals worldwide.

Southeastern's resident assistants bring home four prestigious awards, including Residence Hall Program of the Year, from the Louisiana Association of Housing Officers (LAHO) Equipping Resident Assistant (ERA) conference.

More than 600 high school students from 28 area schools come to Southeastern for the 19th annual Foreign Language Festival.

In March 2001, Southeastern announces an expansion of its already successful fund raising campaign to raise an additional \$5 million in order to further enhance its athletic program, including implementing its gender equity plan, upgrading facilities and possibly reinstating football.

President Sally Clausen is one of 30 area business and professional women selected by New Orleans CityBusiness as Women of the Year for 2001.

Source: Southeastern Annual Report 2000-2001

Points of Excellence 2000 - 2001 (continued)

Mathematics faculty members Johnathan Hatch and Katherine Roegner are among 60 participants nationally selected for the prestigious national program, Project NextT, which draws from new or recent doctoral degree recipients who are interested in improving the teaching and learning methods of undergraduate mathematics.

Southeastern's division of Continuing Education and Special Activities receives two grants totaling \$257,304 from the Louisiana Department of Labor through the Louisiana Incumbent Worker Program to help businesses upgrade employee skills and create new jobs.

Richard Louth, an English professor and Director of the Southeastern Louisiana Writing Project, and Denise Tullier-Holly, an art instructor at the SLU Lab School and Southeastern's Visual Arts department, receive the "Special Humanities Award" from the Louisiana Endowment for the Humanities.

Donnie Booth, Dean of the College of Nursing and Health Sciences, is named a Great 100 Nurse in Louisiana by the Great 100 Nurses Foundation.

Southeastern's first new graduate degree program in more than a decade, a Master of Science in Integrated Science and Technology, is approved by the Louisiana Board of Regents.

On June 19, 2001, hundreds from the campus and community turn out to thank and congratulate President Sally Clausen at a farewell reception as she prepares to leave Southeastern for her new post as President of the University of Louisiana System.

A Brief History of Southeastern Louisiana University

Southeastern Louisiana University began as a grass roots movement by the people of Hammond and the surrounding area, who recognized the need for an institution of higher education in order to further the educational, economic, and cultural development of southeast Louisiana. What began as a junior college supported by local taxes has developed into a major university as Southeastern has grown to meet the evolving needs of southeast Louisiana and the Florida parishes.

On July 7, 1925, the voters overwhelmingly approved a bond issue that created Hammond Junior College. Operated under the auspices of the Tangipahoa Parish School Board, President Linus A. Sims opened the doors on September 14, 1925 with a faculty of three women, two men and forty students. The two-year, coeducational institution offered basic undergraduate work in arts and sciences that culminated in a teaching certificate.

Rapidly increasing enrollments quickly forced the college out of its two rooms in Hammond High School. In 1927, voters supported the purchase of the Hunter Leake estate on Hammond's north end. The main house served as the president's residence and women's dormitory. Classrooms, laboratories, and the library occupied the servants' quarters, while the barn served as the locker room for the football team.

In 1928 Hammond Junior College became Southeastern Louisiana College, formally adopted into the state educational system under the control of the State Board of Education. The purchase of sixty acres adjoining the original fifteen acre plot provided the space to develop a suitable campus, and in 1934, a state bond issue provided for the construction of McGehee Hall and a gymnasium.

In 1937, the State Board of Education authorized curricula for four-year programs in liberal arts, teacher education, business administration, music, social sciences, and physical education. The first baccalaureate degrees were conferred in May, 1939.

Voter approval of Act No. 388 in 1938, an amendment to the 1920 Louisiana Constitution, granted Southeastern Louisiana College the same legal status as other four-year colleges. The amendment did not, however, require the state to fund Southeastern at the level of other institutions of higher education, despite strong local support.

A Brief History of Southeastern Louisiana University, (continued)

On January 18, 1946, the State Board made available funds to purchase seven city blocks east and west of the campus, and 275 acres of land north and northwest of the campus, increasing Southeastern's total area to approximately 365 acres. On March 3, 1946, Southeastern was formally approved and accepted into full membership in the Southern Association of Colleges and Schools (SACS), as a four-year degree-granting institution.

After WW II, returning G.I.s caused exponential growth of the college, necessitating construction of classrooms, a student union, a cafeteria, a health center, dormitories, apartments for married students, and many surplus temporary buildings donated by the federal government. In 1948, the U.S. Navy contributed two steel barracks for use as dormitories, one of which, substantially remodeled, remains in use as a counseling center (McNeely Hall).

In 1960, the State Board authorized Southeastern to offer master's degrees through the newly-formed Division of Graduate Studies. Southeastern began awarding the Education Specialist degree in 1967.

Governor John J. McKeithen on June 16, 1970 signed into law the legislative act turning Southeastern Louisiana College into Southeastern Louisiana University. Early 1970's also saw the construction of D Vickers, the Athletics Building, and the C.E. Cate Teacher Education Building.

Southeastern's enrollment, continually increasing since its inception, reached an important milestone in 1997, registering over fifteen thousand students for the fall semester. Since 1925, Southeastern has conferred over forty thousand degrees.

As Southeastern celebrated its 75th anniversary in 2000, the Fall semester marked an exciting change as Southeastern implemented screened admissions standards for the first time. Also during the 2000-2001 academic year, the Village, the new Classroom and Lab Building and the Student Activity Center were completed.

In May 2001, Southeastern received full approval from the Board of Regents for its first new graduate degree program in more than a decade, a Master of Science in Integrated Science and Technology. Since then, Southeastern received approval for two additional programs, a Master of Art in Organizational Communications and a Master of Science in Applied Sociology.

Students

Meeting the needs of students is a primary concern for Southeastern. Partnerships with area school systems develop better teachers and better prepared students. Southeastern's Superior Junior program gives high school students an opportunity to earn college credit while in high school. Agreements with area community colleges help to ease student transition into a university setting. Southeastern also recently restructured its colleges and departments in order to strengthen student academic experiences and capitalize on recent technology and workforce developments.

Students

Providing facilities to enhance the learning experience is also important to the needs of Southeastern students. The completion of The Village and the new classroom and lab building provides students new residential living centers and academic classroom and lab facilities. The new Student Activity Center offers students, faculty and staff a state-of-the-art cardio-theater, an 11,000 square foot fitness area, two racquetball courts, two multi-purpose/aerobic rooms, four full-court basketball/volleyball courts, six badminton courts, and an indoor walking/jogging track.

Other Demographic Characteristics of Southeastern Students

In the Spring of 2000, Institutional Research and Assessment conducted a survey of Southeastern's student body. The random sample survey provided the following background information on Southeastern's students.

- ❑ Fifty-seven percent (57%) of the respondents have never been married, and 29% are currently married.
- ❑ Thirty-one percent (31%) of the respondents have children under the age of 18.
- ❑ Forty-six percent (46%) of the respondents travel more than 30 miles, one way, to Southeastern's main campus, 35% travel between 5 and 30 miles, 12% travel less than 5 miles and 5% live on campus.
- ❑ Over 75% of the respondents work, with most of them (68%) working off campus. Nine percent (9%) work on campus and 1% work both on and off campus.
- ❑ Of the students who work, 35% work 20 or fewer hours per week, 24% work 21 to 30 hours per week and 41% work more than 30 hours per week.
- ❑ Thirty-five percent (35%) of the respondents are first-generation college students, meaning, neither of their parents had any college education. However, 37% of the students had a parent with a baccalaureate degree or higher.

Faculty & Staff

Quality faculty and staff are key to Southeastern's success. Faculty at Southeastern are actively involved in ensuring that all academic programs remain relevant by developing alliances with business-based advisory councils to help design programs and curricula that meet the needs of the community. The addition of new degree programs such as Master in Integrated Science and Technology, Master in Organizational Communication and Master in Applied Sociology offer a variety of students greater academic opportunities.

Faculty & Staff

To reach a growing number of “non-traditional” students, Southeastern’s educational programs are offered on satellite campuses in St. Tammany Parish and in Baton Rouge as well as in area high schools and technical colleges. The university is a leader in the area of distance education, utilizing compressed video to teach in multiple locations. In addition, telecourses are available over area cable TV systems, and a growing number of courses are now available over the Internet.

(Blank Page)

Resources

Diversification of funding sources beyond state allocations is allowing Southeastern new opportunities to further advance university goals. One important opportunity is Jumpstart, a valuable early literacy program that enhances Southeastern's focus on early literacy, teacher preparation, building community partnerships and service learning. Over the next three years Southeastern could receive as much as \$240,000 for Jumpstart, currently offered in only 16 colleges and universities nationwide.

Resources

Southeastern's Commitment to Excellence Campaign has doubled its \$10 million goal, allowing the university to fund more student scholarships, endowed professorships, and faculty chairs. In addition, sponsored grants and contracts — for innovative projects such as the alternative teacher certification program, wetlands research in the Manchac Swamp, and other academic and cultural programs — have risen significantly in recent years.

Athletics at Southeastern Louisiana University

Notable Highlights 2000 - 2001

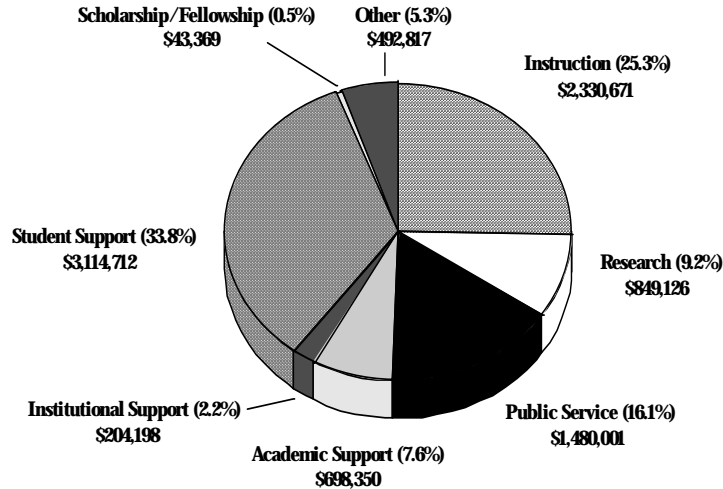

- ❑ Southeastern announced a \$5 million extension of the university's highly successful \$15 million Commitment to Excellence Campaign. The \$5 million goal would allow Southeastern to improve gender equity in the athletic program, make improvements to facilities, and reinstate football. If successful, Southeastern would be able to field a football team in 2003, with a goal of playing a Southland league schedule in 2005.
- ❑ An exciting new website, www.LionSports.net, was unveiled at the start of the new athletic season. Southeastern athletics also developed a fresh identity with a striking new logo and a new line of apparel.
- ❑ In January, 2001, the Southeastern Athletics Department unveiled the new organization, Southeastern Athletics Association, whose mission is to raise funds for and increase awareness of Southeastern's Athletic Program. Nicknamed "The Pride," the Southeastern Athletics Association will incorporate the operations of the former SLU Booster Club.
- ❑ Cross country's Michael Sang became the first Southeastern runner to earn Southland Conference Athlete-of-the-Year after he captured the SLC Championship. Sang also captured individual titles at the SLC Outdoor Track and Field Championships in the 3,000-meter steeplechase and 5,000-meter run. Freshman Janice Ezeibunam established a new school record in the high jump, one of six new records set by the Lady Lions in 2001.
- ❑ The Lady Lion softball team tied a school-record for victories in a season (31) and their 18 wins in Southland Conference play set a new record. The team broke or tied 12 school records in 2001 and advanced to the semifinals of the SLC Tournament in San Marcos, Texas.
- ❑ Women's basketball coach Frank Schneider recorded his 200th career victory at Southeastern on November 17th against Loyola. Junior Ann Webster led the Southland Conference and finished eighth in the nation in steals with 3.6 per game.
- ❑ Women's soccer made its fourth straight appearance in the Southland Conference Championship Match, making it the only school to achieve that feat since soccer was first sponsored in 1997. The Lady Lions established new records for wins (13), goals (46), assists (36) and points (128). Cory Cochrane was named Freshman-of-the-Year by both the Southland Conference and the Louisiana Sports Writers Association, giving Southeastern the last three recipients. Becca Weingartner surpassed former Lady Lion Ashley Strine as the school's most prolific goal and point scorer.
- ❑ Track and field standout Christine Amertil capped off a brilliant Southeastern career as she competed in the women's 400-meter dash at the 2000 Summer Olympics in Sydney, Australia. Running for the Bahamas, Amertil became the third Southeastern athlete -- and first female -- to compete in the Olympic Games.

Grant Highlights Fiscal Year 2000 - 2001

The College of Education and Human Development was awarded \$1.8 million from the U.S. Department of Education to enhance and expand its alternate teaching certification program. Drs. Bill Neal and John Trowbridge implemented this distance learning program for certification via the internet.

In the College of Arts and Sciences, Dr. Penny Shockett of the Department of Biological Sciences received \$92,805 from the Louisiana Board of Regents for research in the “Role of DNA-Dependent Protein Kinase Catalytic Subunit in Coding End Processing During V(D)J Recombination.”

Also from Arts and Sciences, Dr. Gary Keown received a \$75,673 Enhancement grant from the Louisiana Board of Regents to accomplish the “Integration of Advanced Digital Technology into Visual Arts Curriculum.”

In the College of Business and Technology, Dr. Jim Owens, Donna Seale and John Searles administer the Carl D. Perkins Basic Grant, working closely with the associate degree programs offered in Industrial Technology, Office Administration and Criminal Justice. This grant, currently funded at \$148,265, has provided services to Southeastern since 1992.

Dr. Wynn Gillian, Kinesiology and Health Studies, has received multiple grants (totaling over \$170,000 for the 2000-2001 year) for the Excellence in Health Education Project [EHEP]. This program has served our students and community since January 1997.

The Louisiana Department of Labor has awarded Southeastern \$798,000 for the Incumbent Worker Training Program. This program, directed by Veda Abene of Continuing Education, unites faculty and staff with local industries to provide a competitive skilled workforce for the region.

The three-year TRIO Dissemination Program in the College of Basic Studies began in the Fall of 2000. This program, with an annual funding of \$200,000, works closely with students and faculty at area community and technical colleges.

Source: Office of Sponsored Research & Contracts

Continuing Education 2000 - 2001

The Division of Continuing Education and Special Activities' main functions are the coordination of all non-credit and special activities, both on and off campus, and the coordination of off-campus credit courses and telecourses. Continuing Education strives to meet the needs of the non-traditional student as well as the needs of business, industry, government, and the public sector. The division offers a variety of camps during the summer, and is also responsible for reserving Southeastern's facilities to off-campus groups.

Accomplishments of Continuing Education during 2000-2001 include:

- 6,206 students enrolled in academic courses at fifteen off-campus sites.
- 1,728 students enrolled in electronically delivered courses.
- 918 students enrolled in non-credit courses resulting in 87.6 CEU's awarded.
- 3,168 students participated in Summer Camp Programs.
- 28 off-campus groups reserved Southeastern's facilities, attracting over 20,000 visitors to the campus.
- 183,214 individuals attended events at the University Center. This Includes Continuing Education programs, classes, and academic classes.

Source: Office of Continuing Education

Technology Resources

2000 - 2001

Central Computer Equipment: Southeastern's hardware configuration consists of three IBM RS 6000 machines, with an IBM S80 and 12 processors serving as the main database server for the system. Equipped with state-of-the-art copper-based technology and a new version of AIX, IBM's version of the UNIX operating system, this new RS/6000 Model S80 is a 64-bit system that takes full advantage of its leading edge design. The S80's increase performance and capacity, giving a significant boost to the complete range of mission-critical PeopleSoft applications important to Southeastern. Combined with the S80's are two additional machines, IBM H70's with 4 processors each, representing a large portion of the infrastructure upgrade Southeastern has undertaken in an effort to reach its strategic goal to possess a state-of-the-art technology infrastructure.

Network Upgrade: A significant network upgrade is in progress. The first phase included upgrading the core network hub in McClimans Hall. Focus then continued on the offices that are heavily utilizing the new administrative systems. Eventually, these capabilities will be extended to all buildings and workstations. These network upgrades will increase the speed of inter-building links from the current 10 megabits to 100 megabits or more per second. The new administrative systems support graphical point and click and Internet technologies, which place more demand on the network than our Legacy systems that utilize a character-terminal interface. This and future plans to integrate a document imaging system have increased the need for a network upgrade.

Student Technology Fee Resources: Thanks to the Student Technology Fee, new computers and computer labs, staffed with student workers to provide assistance with technology, are available for students in numerous locations across campus. The fee also has enabled Southeastern to employ 110 Student/Graduate Technology Assistants during the Fall semester and again in the Spring semester, with 75 Student/Graduate Technology Assistants employed during the Summer semester. Another added plus of the Student Technology Fee are laptops, projectors and digital cameras, available for students to checkout.

Source: Office of Technology

Technology Resources 2000 - 2001 (continued)

Computer Labs: Southeastern now has fifty-two state-of-the-art computer labs available to train, assist and serve all Southeastern students with technology in a positive environment; thus providing a value-added component to enhance their academic achievements and workforce preparation. The equipment in these labs range from multi-media super PCs, zip drives, printers, scanners, Read Only and Read/Write CD ROMS, LCD panels and Macs. Open labs, available to all students and majors, are available in the Classroom Lab Building and North Campus Basic Studies. Southeastern has a total of 1134 computers available for student use. Of these, 73 are in open labs, 74 in service labs, 542 in restricted labs, 382 in closed labs, and 63 are in the Sims Memorial Library.

Electronic Classrooms and E-Campus: A number of classrooms on and off campus have been equipped to handle e-learning activities, allowing faculty in many departments the use of computers and related peripherals to aid students in the learning process. As a member of the Board of Regents audiovisual network for research, Southeastern utilizes one on-campus compressed video classroom to connect to other BOR universities and to remote Southeastern campuses in Covington and Baton Rouge. Other classrooms are being developed to connect Southeastern to locations in surrounding parishes. Further expanding the list of e-learning activities is the number of online classes offered, such as algebra, english, introduction to sociology or music, computer literacy, elementary statistics, telecommunications, and graduate courses in education and business, among others. In the Fall 2000 semester, 862 students enrolled in 42 Internet courses.

Source: Office of Technology

Technology Resources 2000 - 2001 (continued)

Linus A. Sims Memorial Library: Sims Library utilizes a variety of technologies to deliver services and resources to the students and faculty of Southeastern. The Library's online catalog, electronic indexes, full-text databases, and an electronic reserves system are made available on the 70 plus computers available throughout the building. Internet access, with free printing, is available throughout the Library. Many of the Library's operations are handled through the statewide automated library system, operated by the LOUIS office at Louisiana State University. This system is being upgraded to a fully web-based system (Sirsi UnicornLink), offering numerous patron empowerment options in January 2002. Interlibrary Loan transactions are facilitated through use of ILLiad, an electronic Interlibrary Loan system, and through use of Ariel software designed to facilitate timely delivery of articles. The Library also subsidizes article delivery services for faculty and graduate students through Ingenta, a database which offers citations from 20,000 multi-disciplinary scholarly journals, in addition to electronic alerting and table of contents services. Within the Library, a computer lab, partially funded by the Student Technology Fee, provides access to a variety of application software packages. A computer with adaptive equipment and software, (including JAWS, Naturally Speaking, ZoomText, and OpenBook), is available in the Media Dept. A lab/classroom is utilized to allow hands-on experience for students enrolled in the Library's credit course teaching information literacy skills. An additional classroom for non-credit instructional sessions utilizes a wireless laptop system to allow hands-on experience. The Library's webpage provides links to the myriad of resources and services, with online forms available for a variety of service requests.

Center for Faculty Excellence: The Center for Faculty Excellence helps faculty assess and incorporate technology in their teaching through workshops, seminars, and individualized training. The Center offers software ranging from basic office applications to graphics and video editing programs, as well as a variety of equipment including scanners, color printers, and digital cameras. The knowledge and skills faculty gain through the Center are transformed into tools and strategies that enhance both traditional and distance learning environments.
