

Student Success After Graduation

In Spring 2007, Institutional Research and Assessment conducted a survey of alumni who had graduated in academic years 2002-2003, 2003-2004, and 2004-2005. Some highlights of the survey include:

- The vast majority (95%) are satisfactorily employed.
- Over three-fourths (80%) are continuing or plan to continue their education.
- Most (88%) of the respondents employed full-time, work in the state of Louisiana, with the majority being employed in the area of their Southeastern major or a related area.
- The average income of alumni exceeds the average income of Louisiana residents.

Type of Organization Where Alumni are Employed
