## Message from the President

---

As a public institution with a strong, regionally-focused mission, Southeastern Louisiana University has a long history of community involvement and commitment to service. Whether this involves tutoring children after school in mathematics, helping to build homes for Habitat for Humanity, rebuilding damaged marshlands, or providing needed healthcare services to thousands, Southeastern students have enthusiastically embraced the philosophy of giving back to their communities.

Increasingly, service activities are becoming infused within course work, giving students opportunities to apply the theories and principles they learn in the classroom to real-world situations. No longer just something to add to students' resumes, service learning and community engagement are now widely acknowledged as contributing significantly to students' academic success.

I am truly impressed as I see students giving up spring break vacations to do community service or spontaneously developing a campaign to aid the victims of the earthquake in Haiti. Their concern and outreach to their fellow man in need – whether locally or in a distant land – is something in which I take considerable pride.

By any measure, these activities not only aid in the building of our communities and improving the quality of life of our citizens, but have helped develop a new corps of engaged citizens. Our nation and our state are all the better for their service.

John L. Crain  
President

## Golden Silence Memorial

---

For the past 14 years, the Southeastern Alumni Association has hosted Golden Silence, an event intended to honor deceased Southeastern alumni, faculty, staff, students, and their family members who have passed away during the previous year.

“The ceremony helps bring closure to families who have lost loved ones and also lets them know they are always a member of the Southeastern family and will be remembered in perpetuity,” said Alumni Association Director Kathy Pittman. “We always invite the campus and the public to join us at Golden Silence to remember those who have passed away during the past year.”

The ceremony begins with opening remarks by university officials, includes a reading of the names of the deceased, and lighting of candles by family and friends in remembrance of those who have passed.

“Hearing someone’s name at the ceremony is a nice way for those who have lost family and friends throughout the year to honor their memory,” said President John L. Crain. “The ceremony is not extravagant, but is very meaningful to the participants.”

# A Brief History of Southeastern Louisiana University

Southeastern Louisiana University began as a grassroots movement by the people of Hammond and the surrounding area, who recognized the need for an institution of higher education in order to further the educational, economic, and cultural development of southeast Louisiana. What began as a junior college supported by local taxes has developed into a major university as Southeastern has grown to meet the evolving needs of southeast Louisiana and the Florida Parishes.

On July 7, 1925, voters overwhelmingly approved a bond issue that created Hammond Junior College. Operated under the auspices of the Tangipahoa Parish School Board, President Linus A. Sims opened the doors on September 14, 1925 with a faculty of three women, two men, and forty students. The two-year coeducational institution offered basic undergraduate work in arts and sciences that culminated in a teaching certificate.

Rapidly increasing enrollments quickly forced the college out of its two rooms in Hammond High School. In 1927, voters supported the purchase of the Hunter Leake estate on Hammond's north end. In 1928 Hammond Junior College became Southeastern Louisiana College, formally adopted into the state educational system under the control of the State Board of Education. The purchase of sixty acres adjoining the original fifteen-acre plot provided the space to develop a suitable campus, and in 1934, a state bond issue provided for the

construction of McGehee Hall and a gymnasium.

In 1937, the State Board of Education authorized curricula for four-year programs in liberal arts, teacher education, business administration, music, social sciences, and physical education. The first baccalaureate degrees were conferred in May 1939.

Voter approval of Act No. 388 in 1938, an amendment to the 1920 Louisiana Constitution, granted Southeastern Louisiana College the same legal status as other four-year colleges. The amendment did not, however, require the state to fund Southeastern at the level of other institutions of higher education, despite strong local support.

On March 3, 1946, Southeastern was formally approved and accepted into full membership in the Southern Association of Colleges and Schools (SACS) as a four-year degree-granting institution.

In 1960, the State Board authorized Southeastern to offer master's degrees through the newly-formed Division of Graduate Studies. Southeastern began awarding the Education Specialist degree in 1967.

Governor John J. McKeithen on June 16, 1970 signed into law the legislative act turning Southeastern Louisiana College into Southeastern Louisiana University.

## A Brief History of Southeastern Louisiana University (continued)

In October of 1986, a group of faculty members launched Fanfare, a festival celebrating the arts and humanities. Since then, Fanfare has become an acclaimed month-long event, drawing nationally and internationally recognized artists and providing recognition for those closer to home. In addition to providing entertainment for the North Shore, Fanfare has an educational outreach program that works closely with local schools. In October 2010, Fanfare proudly celebrated its 25th Anniversary.

Southeastern's enrollment, continually increasing since its inception, reached an important milestone in 1997, registering over fifteen thousand students for the fall semester. Since 1925 Southeastern has conferred over sixty thousand degrees.

As Southeastern celebrated its 75th anniversary in 2000, the Fall semester marked an exciting change as Southeastern implemented screened admissions standards for the first time. These standards were strengthened in 2003, in 2005 and again in 2010.

Fall 2003 saw the return of football to Strawberry Stadium. The Lions completed the season 5-7.

In Fall 2005 Southeastern implemented the Board of Regents Master Plan admissions criterion and then six days into the semester, Hurricane Katrina hit southeast Louisiana. While Southeastern suffered no major structural damages, many students, faculty, and staff were impacted. Also, Southeastern was able to play an instrumental

role in the relief effort by providing housing for the National Guard, disaster relief teams from across the country, and utility workers.

In Fall 2006, Southeastern enrolled its very first doctoral students. Ten students began in the Ed.D. in Educational Leadership that Southeastern offers in conjunction with the University of Louisiana – Lafayette. That fall also marked the opening of the Center for Student Excellence, a center to help provide students the resources they need to get the most from their education and graduate in a timely manner. The center was the result of many years of work by a large segment of the Southeastern community.

In Fall 2008, Southeastern received word that the Art program had been accredited by the National Association of Schools of Art and Design (NASAD). This achievement means that every degree program at Southeastern required or recommended by the State Board of Regents to achieve national discipline-specific accreditation has been reached.

Since 1925, many dedicated individuals have led Southeastern from a junior college to the vibrant university it is today. Those individuals who have served as a Southeastern President are: Linus A. Sims, Yves Leon Fontenot, J. Leon Clark, George W. Bond, Gladney Jack Tinsley, Luther Dyson, Clark LeBlanc Barrow, J.B. Wooley, Clea Parker, J. Larry Crain, G. Warren Smith, Sally Clausen, Randy Moffett, and John Crain.

## Caring for Others in the Community

---

Each year, Southeastern's chapter of Delta Tau Delta Fraternity participates in a fundraiser they call "Delts-Do-a-Thousand." This year the fraternity decided to raise money and public awareness to aid two year-old Tripp Roth and his family.

Roth, from Ponchatoula, was born with a rare skin disorder known as Junctional Epidermolysis Bullosa, or EB, an extremely painful condition. Roth lost his battle with the disease in early 2012 at the age of two years.

EB affects less than one in a million people in the United States. The disorder negatively affects the production of the protein collagen, which normally makes the skin strong and flexible. As a result, for people with EB, the body's tissues, such as skin, are left extremely fragile and susceptible to abrasions and painful blisters from the slightest touch, friction or minor trauma.

There is no known cure, and the experimental treatments were expensive for the Roth family. The costliness of these treatments is what prompted the fraternity to raise money for Tripp.

"Delta Tau Delta has been performing 'Delts-Do-a-Thousand' for years. This is the second time we have chosen to raise money for Tripp," said President Brandon Colletti. "His cause was relatively unknown, and it is very important to make people aware of the disease."

## 2010 - 2011 Highlights

- » At the Fall 2010 Honors Program Awards Convocation, thirteen students received the Sophomore Honors Distinction Award. All of these students had a GPA of 3.5 or higher after completing at least sixty hours including at least twelve hours in Honors courses. Dr. Craig Saucier, Department of History and Political Science, received the annual Honors Teaching Award.
- » As part of Multicultural Awareness Week and in cooperation with the Office of Multicultural and International Student Affairs, the Honors program co-sponsored a panel discussion entitled *Islam and the West*. This discussion was a great opportunity for members of the Southeastern community to learn about

a religion that is helping to shape regional, national, and international policies. The panel consisted of Dr. Erkan Kurt, Muslim Theologian at the Institute for Interfaith Dialogue in Houston; Dr. Margaret Gonzalez-Perez, Professor of Political Science at Southeastern; and Ms. Ann O'Connor, graduate student in Communications at Southeastern and twelve year resident of the Middle East. The audience heard background information from each of our panelists and then had the opportunity to ask questions. It was an informative and lively conversation!

- » Seven senior theses were presented in public forums. The disciplines in which the theses were completed attest to the breadth of the Honors Program: Communications Sciences and Disorders, English, French, History, Marketing, Psychology, and Spanish.
- » In the spring, the Honors Club sponsored the Senior Awards Banquet in the War Memorial Student Union. At this banquet our graduating seniors were recognized for their efforts and presented with their Honors cords. Many of our graduates are continuing their studies in graduate school.

## 2010 - 2011 Highlights

- » The Office of International Initiatives works to increase the global vision of the students of Southeastern Louisiana University by providing participants with cross-cultural and international experiences essential to success in a global economy and to strengthen the educational, economic, and social relations between the United States and other countries. We accomplish this goal by a two-pronged approach offering Study Abroad programs led and taught by Southeastern faculty members and joining with partner institutions across the globe to provide opportunities for student and faculty exchanges.
- » A total of eight Study Abroad programs were offered in 2011 with 131 students and 17 faculty participating in a total of 54 courses.
- » The Student Government Association continued its support for Study Abroad by generously providing \$40,000 in scholarships, awarding 40 students \$1,000 each. Additional scholarships were awarded by the Institute for Global and Domestic Development, the Charles Redman Endowment, the Department of Foreign Languages and Communication, and the Southeastern Louisiana University Spanish Club
- » In addition to the Study Abroad opportunities, several students took advantage of the cooperative agreements between Southeastern Louisiana University and other universities world-wide to spend a semester or an entire year studying at the foreign institution.

## Undergraduate Research 2010 - 2011

The first annual Southeastern Student's Research, Creative, and Scholarly Activities Showcase was hosted by the Office of Sponsored Research & Programs in Spring 2010. The Showcase highlighted the work of 124 students from the College of Arts, Humanities, & Social Sciences, College of Education & Human Development, College of Nursing & Health Sciences, and the College of Science & Technology.

- » Students were presenters or co-presenters at state, regional, national, and international conferences including:
  - Entomological Society of America
  - American Speech-Language-Hearing Association
- » Students performed/entered various competitions including the Fashion Group International's Annual Dallas Career Day.

## Other Demographic Characteristics of Southeastern Students

In the Fall of 2011, Institutional Research and Assessment conducted a survey of Southeastern's student body. The random sample survey provided the following background information on Southeastern's students.

- » Most (72%) of the respondents have never been married, and 22% are currently married.
- » About one-fifth (18%) of the respondents have children under the age of 18.
- » More than one-third (38%) of the respondents travel more than 30 miles, one way, to Southeastern's main campus, 33% travel between 5 and 30 miles, 15% travel less than 5 miles, and 14% live on campus.
- » The vast majority (72%) of the respondents work, with most of them (59%) working off campus. Ten percent (10%) work on campus and 3% work both on and off campus.
- » Of the students who work, 43% work 20 or fewer hours per week, 24% work 21 to 30 hours per week, and 33% work more than 30 hours per week.
- » Approximately one-fourth (26%) of the respondents are first-generation college students, meaning neither of their parents have any college education. Over two-fifths (41%) of the students have a parent who has earned a baccalaureate degree or higher.

FACULTY & STAFF

## Caring Faculty, Satisfied Students

---

Southeastern's faculty have a long recognized tradition of close interaction with students, working to inspire, challenge, enrich, and help them achieve their goals and aspirations. Many students choose to attend Southeastern because of its family-like reputation as a large university with a small university atmosphere: students are names, not just numbers.

"I had some choice in selecting my university. I wanted to go somewhere that would give me the opportunity to excel and where I would get to know my professors. I wanted to be 'Caitlyn Guice,' not 'Number 52,' said junior chemistry major Caitlyn Guice of Prairieville.

Amber Bordelon of Loranger added: "I love how accessible my professors are. I may not even be in one of their classes, but I know I can still stop in and ask a question and they are willing to help me. I'm very glad to get to know them all personally."

Southeastern provides multiple opportunities for real world experiences, participation in undergraduate research, and service-learning endeavors that complement classroom work. These opportunities provide Southeastern students with valuable experience that can help them in the job market or in pursuit of graduate studies.

According to Guice, "I wanted a chance to do chemical research as an undergraduate student, which is not as likely to happen at a larger university. So I chose Southeastern, and I love it! I was able to start doing chemical research my second semester here, and I'm still working under the same professor. This has opened many doors for me. I'm at home here."

## Caring for the Community

---

As a regional institution, Southeastern Louisiana University takes pride in collaborating with the communities it serves. In terms of philanthropy, Southeastern's faculty and staff members annually support the local fundraising efforts of the American Cancer Society, American Heart Association, and United Way.

Following 15 years of tradition, Southeastern once again hosted the 2011 Relay For Life of South Tangipahoa at North Oak Park. Through various fundraising initiatives, Southeastern teams contributed \$23,423.67 to the American Cancer Society through its signature event.

In Relay For Life, participants celebrate the lives of those who have survived cancer, as well as those who have succumbed to the disease. Funds raised go toward cancer treatment research, prevention education for the public, and advocacy for laws and policies to assist individuals and families dealing with the disease.

Southeastern is also a long-time supporter of the American Heart Association's Heart Walk. Faculty and staff are encouraged to raise funds and take part not only in the Tangipahoa Heart Walk around campus, but also in the regional Northshore event that takes place on a different date at Fontainebleau State Park in Mandeville. The Heart Walk is a call to action that evokes active participation in exercise and reducing the risk of heart disease and stroke. Last year Southeastern's Heart Walk saw the participation of 70 walkers who raised a total of \$7,277.

Additionally, the generosity of the Southeastern family was recognized with a United Way Company Lifetime Award, which was presented at the 2011 kickoff of the annual fundraising drive. The award recognizes the top companies and organizations that raise the most dollars for the community through their United Way workplace campaigns. Since 1995, more than \$454,300 has been donated by faculty and staff to the United Way of Southeast Louisiana. The university was also named a Top 10 Company for the Tangipahoa United Way campaign for its collections of nearly \$35,000 in 2010.

Teams often compete among themselves in fundraising activities for organizations, such as the American Heart Association and the American Cancer Society.

## Division of University Advancement 2010 - 2011

The mission of Southeastern's University Advancement Division is to promote Southeastern, enhance its reputation, and foster volunteer involvement and private investment by creating and stewarding meaningful relationships. University staff operate the University's three affiliates (Southeastern Alumni Association, the Southeastern Foundation, and the Lion Athletics Association) to advance and support the university's mission.

## Extended Studies 2010 - 2011

The Division of Extended Studies' main functions are the coordination of all non-credit and special activities, both on and off-campus, and the coordination of off-campus credit courses and telecourses. Extended Studies strives to meet the needs of the non-traditional student as well as the needs of business, industry, and the public sector. The division offers a variety of camps during the summer and is also responsible for reserving Southeastern's facilities for third party groups.

Accomplishments of Extended Studies during the 2010-2011 academic year include:

- » 2,568 academic course enrollments in 21 off-campus sites
- » 824 students enrolled in non-credit courses resulting in 478 CEU's awarded
- » 4,353 students participated in one of the 34 Summer Camp Programs
- » 25 off-campus (third party) groups reserved Southeastern's facilities, attracting over 20,325 visitors to the campus

## Technology Resources 2010 - 2011 (continued)

**Linus A. Sims Memorial Library:** Sims Library utilizes a variety of technologies, including a 24/7 virtual reference service, to deliver resources and services to the students and faculty of Southeastern. The Library's online catalog, electronic indexes, full-text databases, and an electronic reserves system are made available on 145 computers throughout the building. Internet access, printing, and wireless technology are also offered. Many of the Library's operations are handled through the statewide automated library system, Sirsi/Dynix Symphony, operated by the LOUIS office at Louisiana State University. Interlibrary Loan transactions are facilitated through use of ILLiad, an electronic Interlibrary Loan system, and through use of Ariel software designed to facilitate timely delivery of articles. Within the Library, computer labs, partially funded by the Student Technology Fee, provide access to a variety of application software packages. A computer with adaptive equipment and software (including JAWS, Naturally Speaking, Zoom Text, and OpenBook), is available in the Media Department. Two laboratory classrooms allow hands-on learning for students enrolled in the Library's credit course teaching information literacy skills and for course-specific bibliographic instruction classes. An additional classroom for non-credit instructional sessions utilizes a Symposium audiovisual system and a presentation practice studio allows students to develop and rehearse multi-media presentations individually or in small groups. The Library's webpage provides links to a myriad of resources and services, with online forms available for a variety of service requests.

**Center for Faculty Excellence:** The Center for Faculty Excellence helps faculty select and incorporate appropriate technologies to enhance their teaching, improve student learning and promote their research. Through workshops, seminars, and individualized training, the Center assists in adapting curriculum for electronic delivery, creating multimedia presentations, and developing technical components for faculty projects, presentations or publications. We offer software support ranging from basic office applications to graphics and video-editing programs, as well as a variety of loaner equipment including projectors, video cameras, laptops, and digital cameras. The knowledge and skills faculty gain through the Center are transformed into tools and strategies that enhance both traditional and distance learning environments.
