Introduction

The first Strategic Priority for Southeastern is “To engage a diverse population of learners with powerful experiences.” In order to better understand the reasons why students leave Southeastern before graduating, Institutional Research conducted the Non-Returning Student Survey, a phone survey of Fall 2013 cohort students who were not enrolled in Fall 2014. Students who had been suspended were excluded from the sample. This report details the results of the Non-Returning Student Survey.

Method

Participants

The population for this study were the 604 students of the Fall 2013 cohort who were not enrolled in Fall 2014 and were not currently suspended. The survey yielded a response rate of 51.3%.

Procedure

The Office of Institutional Research worked with Enrollment Services to identify students to conduct the phone survey. These students were trained and supervised by Institutional Research staff. The survey was conducted from 6 pm - 9 pm Monday through Thursday.

Instrument

The survey first asked a series of questions to determine if students planned on returning to Southeastern in the future, and if they had intended to obtain a degree when they began at Southeastern. Respondents who indicated they did not plan on returning to Southeastern were given a list of possible reasons why a student might leave college, and were asked to rate whether it was a major reason, a minor reason, or not a reason at all in their decision to leave Southeastern. Students who indicated that they did plan to continue their education at Southeastern were first asked when they planned to return to Southeastern. They were then given a list of possible reasons why a student might stop attending Southeastern for a while, and were asked to rate whether each item was a major reason, a minor reason, or not a reason at all in their decision to “stop-out.” The final section asked for demographic information that is not collected as a part of the application or registration process, such as the number of children a student has and how far they have to travel to campus. The entire survey can be found in Appendix A.

Results

The first set of questions was to determine whether students were: 1) Drop-Outs, those students who no longer plan to continue their education at Southeastern, including those who plan on or have transferred elsewhere; 2) Stop-outs, those students who plan to return to Southeastern at some point. Based on these definitions, 68% (n=131) of the respondents were Drop-Outs and 32% (n=61) were Stop-outs.

Stop Outs

The majority of the Stop-outs (33%, n=20) plan on returning to Southeastern in Spring 2015, while 38% (n=23) planned on returning to Southeastern within the next year. Ten percent (n=6) plan on returning within the next two years and 20% (n=12) are not sure when they will return.

Next, Stop-outs were asked to indicate whether each of thirteen possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to stop attending Southeastern for a while. “Needed to earn more money” was the item with the largest endorsement, with 41% of respondents indicating it was a major reason and 18% indicating it was a minor reason they stopped attending Southeastern. This was followed by “Had family responsibilities to take care of” which resulted in 33% citing the statement as a major reason and 16% citing a minor reason.

Table 2 provides the percentage of endorsement for Major Reason, Minor Reason, and Not a Reason for each item.

Table 2
Stop-Out Reasons

An analysis of National Student Clearinghouse shows 13 community colleges and 15 universities that students enrolled in after attending Southeastern. It represents 79% of drop-outs. The top two- year schools chosen were Delgado Community College (36%) and Baton Rouge Community College (31%). The top four-year schools chosen were Louisiana State University-AG (25%) and University of New Orleans (19%).

Respondents were then asked what was the main reason they decided to attend another school. A combined 29% (n=24) of the respondents indicated Southeastern did not have the major in which they were interested and moving closer to home were reasons they left Southeastern(6%). All the responses can be found in Appendix B.

Next, Drop-outs were asked to indicate whether each of forty-five possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to leave Southeastern. “Decided to attend a different college” was the item with the largest endorsement, with 59% of respondents indicating it was a major reason they left Southeastern. This was followed by “tired of commuting to Southeastern” (21%) and “too much stress” (12%).

Table 4 provides the percentage of endorsement for Major Reason, Minor Reason, and Not a Reason for each item.

Difficult Course(s)

Students were asked if they had problems with any particular course. Sixty-seven respondents (31%) identified a particular course or courses with which they had problems. Math was the most commonly cited course, with 40 respondents (60%) indicating a particular math course or just math in general. All courses and any comments made about them can be found in Appendix C.

Demographics of Drop-Outs and Stop-Outs

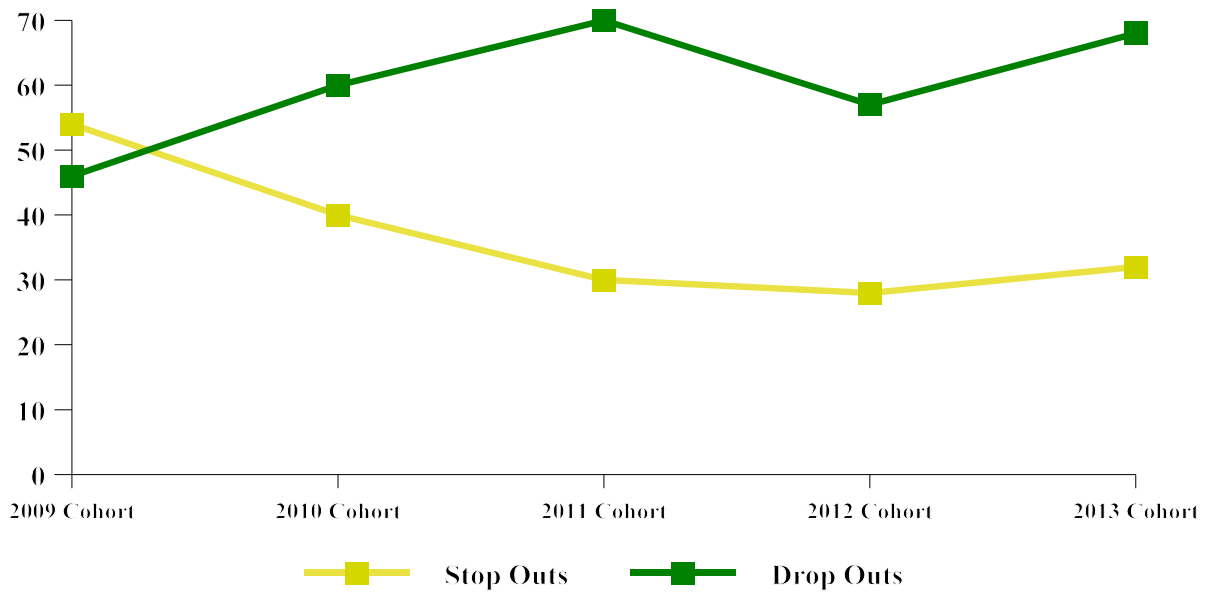

The last portion of the survey asked participants for demographic information that is not readily available as part of the student record system. Answers to these questions help give a better understanding as to what type of student will leave Southeastern either temporarily or permanently. The vast majority of students (89%) have never been married, and do not have children (87%). Nearly a fourth (23%) of the respondents traveled more than 30 miles (one way) to Southeastern's main campus, while another 30% lived on campus. Over half (51%) of the respondents worked off campus. An additional 4% worked on campus. Thirty-two percent of those who worked, spent more than 30 hours a week working, with an additional 34% spending 21-30 hours a week working. Eighteen percent of the respondents are first-generation college students, which according to Terenzini et al (1996) is a student who has no parent with any college or university experience.

Comparison to Previous Years

Stop-outs yielded a four percent increase between 2012 Cohort and 2013 Cohort. Meanwhile, the percentage of drop-outs increased by eleven percent. The graph below shows the change over the past five years. This year, “Needed to earn more money” was the first ranked reason for a student stopping out. The second reason was “Had family responsibilities to take care of .” The third ranking was “Academic Problems.”

As in the past, the main reason students dropped out was due to “Decided to attend a different college.” The second and third reasons were “tired of commuting to Southeastern” and “too much stress.”

Appendix A
Non-Returning Student Survey

Hello, my name is _____ and I am calling from the Southeastern Louisiana University.

To better serve our students, we are conducting a confidential and voluntary survey of former Southeastern students who are not enrolled here this semester. The survey will take only a few minutes. Keep in mind that all answers are strictly confidential. Your participation is voluntary.

You may stop at any time without penalty, and if you wish not to answer a particular question, please say so. For quality control, your call may be monitored. All questions pertaining to this survey should be addressed to Dr. Michelle Hall. My supervisor may call once our interview is completed to insure that I am conducting it properly.

Intro questions

1. Do you plan to continue your education? (*1=No, 2=Yes*)
If no, go to Non-Returning
If yes continue to intro 2

2. a. Do you plan to continue your education at Southeastern or somewhere else?
If Southeastern, go to Stop Out questions
(*1=Southeastern, 2= somewhere else*)
b. Have you enrolled in another school yet?
1=No 2=Yes
If No go to Non-Returning
c. What school have/will you enroll(ed) in?
d. What is the main reason you decided to attend _____ ?
Go to Non-Returning Questions

Non-Returning:

I am now going to read some reasons why a student might leave college. For each reason, please tell me whether it was a major reason, a minor reason, or not a reason that you decided to leave Southeastern.
