# FALL 2010 GRANTS NEWSLETTER

East Stadium Building, Room 212 – Hammond, LA 70402

Volume 46, Fall 2010

## Director's Message

On behalf of the Office of Sponsored Research and Programs, I extend a warm welcome to all faculty, staff and students. As we enter a new academic year, please remember that our office is equipped to assist faculty at all career stages - from the rising stars to the mid career stars who are gaining national prominence, to learned scholars, who are deemed experts by their peers. As you grow in your career, let us continue to be of service to you. Your research endeavors are the barometer of our efforts. Moreover, they spur the university to greater achievements. Again, thank you for your contributions and we look forward to working with you this academic year.

Cheryl E. Hall, J.D.  
Director

## *Students' Research, Creative, and Scholarly Activities Showcase Held at Southeastern*

The Office of Research and Graduate Studies (ORGS) and the Office of Sponsored Research and Programs (OSRP) hosted its first undergraduate and graduate student's showcase of research, creative, and scholarly activity, on Thursday, April 15, 2010 in the War Memorial Student Union Ballroom. The showcase was held from 11:00 a.m. to 2:00 p.m.

The University-wide, non-competitive event provided a venue for students, from all disciplines, to display conference posters, publications, and other visual presentations. Students discussed their displays and faculty advisors utilized this forum to encourage more students to participate in research, creative, and scholarly activities. Over 100 students and faculty advisors participated in this event.

## *Research Day Highlights*

OFFICE OF SPONSORED RESEARCH AND PROGRAMS (OSRP)

## Mission Statement

The Office of Sponsored Research and Programs works with faculty, staff, and students to promote externally funded research, instruction, public service, academic and institutional support, and scholarship/fellowship projects at Southeastern Louisiana University. External finding supports strategic priorities of Vision 2010 Mission and enhances the educational, economic, and cultural development of southeast Louisiana.

## OSRP Checkout Procedures

To aide the OSRP in the university check out process, persons severing ties with the university who have conducted sponsored projects should assure that all award requirements have been met, prior to departure. As applicable, the following documents should be provided to the OSRP.

- Progress, technical and/or final reports;
- Subcontract status and
- Project transfer/change of Principal Investigator approval
